Pertinent Comment

Let's Buy Some Advice

With all the enthusiasm for community development which is now in the air it would be a calamity not to go ahead and realize on the possibilities which everyone admits Sierra Madre possesses. It might be an even greater calamity to proceed along wrong lines and waste all this energy and enthusiasm and a lot of money besides on ill-considered plans and projects.

Sierra Madre has a lot of smart people. They have a lot of splendid ideas. Sometimes they have ideas that are not so splendid. And sometimes these same people have ideas which are about as reconcilable as midnight and noon. It may or may not be possible for them to get together on a community program if left to their own devices.

Obviously the thing to do is to get competent advice from a disinterested source. Stuart French laid down as the first step of a city planning program the hiring of an expert in city planning. A competent man would of course take the large view of the city, and work for the whole and not for any group or section. He could submit a plan which might not be worked out at once, but it would be something to aim at. Sierra Madre ought to take Mr. French's advice right now. The city or some other agency which can afford to pay the costs, could make no better investment than to put the right kind of a man on the job at once.

Getting Returns on That \$60,000

When the city acquired by condemnation the Baldwin interest in the water rights of the Little Santa Anita canyon it cost about \$60,000. Lots of people thought the court set an outrageous price. There was a great deal of opposition to paying it.

By that suit the city acquired a half interest in the water rights of the canyon, the water having been previously owned jointly by the Sierra Madre Water Co. and E. J. Baldwin. The acquisition of the water company by the city gave it complete control of the canyon water rights.

Now the city is driving one of the tunnels further into the mountains and has already added ten inches or more to the flow of gravity water. The flow continues to increase as the work progresses. At current valuation of \$5,000 a miner's inch for gravity water the increase to date is just about equal to what that half interest cost the city ten years ago.

Here is where the foresight of Mayor Jones and his associates of the board of trustees at that time deserve special credit. With divided ownership in the canyon water the city could not have done this development work without consent of the other owner. People familiar with the kind of cooperation which was possible under the old conditions knew that there would be no further development, under those circumstances.

The city officials were pretty liberally berated for starting the suit, which was expected to cost \$20,000 or \$30,000. They were still further criticised when the court assessed double the expected cost. But they knew the city must have complete possession of the canyon at whatever cost, and now they have a right to say, "I told you so."

Storage Principal Problem

Apparently Sierra Madre need not worry about the quantity of available water. The principal problem now is to provide sufficient storage capacity to tide the city over any possible breakdown in the system. It does not give one a comfortable feeling to know the city cannot store up enough water to last 24 hours. Practically everyone is agreed that there should be capacity for at least three or four days. It is reassuring to know that the water department and trustees are alive to the situation and that the city engineer is to bring in definite proposals and estimates of cost at the next meeting of the board. Then for action.

Clearing for Action

Hats off to Mr. Wilson for his timely aid in seeing the Firemen's Club project.

Firemen's Club Building To Be Completed at Once

Immediate completion of the Firemen's Club building at the corner of Central Avenue and Windsor Lane was ordered at the meeting of the board of directors in the City Hall Wednesday night.

The building and lot will represent a value of about \$30,000 when completed, the estimated cost of finishing it being \$16,000 to \$18,000. The building will occupy the full lot 61x124 ft.

Financing of the enterprise to completion is made possible through the co-operation of R. B. Wilson who met with President M. D. Welsch and the other directors and agreed upon terms. Mr. Wilson had previously expressed a keen interest in the enterprise, and especially in obviating the present condition of the unfinished building.

Open Bids Aug. 1

As a result of the agreement reached between Mr. Wilson and the directors of the club the latter have called for bids for the completion of the building. Bids will be opened on August 1 and it is proposed to rush the building to completion without further delay.

PAYGROUNDS AT SCHOOL INCREASINGLY POPULAR

Variety of Amusement for Old and Young Provided Day and Evening

The community playgrounds, at the school house, continue to attract a merry bevy of boys and girls every afternoon. The larger wading pool has been deepened several inches, allowing a greater depth of water and increasing the fun for the many children who wade and splash in it these warm days. The total attendance is seldom below fifty for any afternoon and more frequently it is above this. The story hour is attracting a considerable number of girls, and, this, with all other features, will be continued through the summer.

Mr. Betts, from the University of California, Southern Branch, will assume charge as director, beginning next Monday, to relieve Mr. Stovall, who will go to the Boy Scout camp at Catalina with Troop One and other boys from the Pasadena district next Thursday. The Sierra Madre boys will return at the end of the ten-day period, but the scoutmaster, who is to serve as assistant camp director, will remain until September. Ivan Manson, assistant scoutmaster, will be in charge of Camp One during the summer.

The Friday evening dance on the quadrangle will attract a bigger crowd than ever this week, it is believed. These affairs are made as delightful and happy as possible by the playground committee, and are open to everybody, old and young, a small charge of only ten cents for the whole evening being made. The Mountaineer orchestra supplies the music. The dance begins at 7:30 and continues till ten.

Miss Aletta Marie Olsen, who has been spending the year in Long Beach is now spending part of summer with her brother, Andrew Olsen of 53 Suffolk Avenue.

ject through to completion. That will mean a great deal more than may appear on the surface. The club members will have their long desired quarters. The fire apparatus will be properly housed. A substantial addition will have been made to the business section. A stimulus will be given to the West Central Avenue development toward the future civic center. A long standing eye-sore will be removed. And the way will be cleared for a number of things which have hinged more or less upon the completion of that building. Many people had reached a state of mind where they believed a bond issue for a city hall was the only remedy for the unsightly condition of the lot. Now that adequate city hall quarters will be provided on a rental basis for some time to come, the city may devote its resources to more essential improvements such as water storage and street improvement.

Adequate city hall quarters, housing for the fire engine and jail, as well as a corner store room and offices on the second floor are contemplated in the revised plans for the building. Architect R. M. Finlayson is completing details so that the plans and specifications will be ready for inspection in the office of Secretary Dietz by Monday.

The store room on the ground floor will occupy the corner of the building at Windsor Lane. The fire engine quarters will occupy the other corner on Central Avenue. The entrance to the city hall quarters and the stairway to the second floor will be between the two. The city hall will occupy the rest of the first floor. There will be no auditorium as was originally planned.

The quarters of the Firemen's Club will be in the basement and will be finished so as to give the organization attractive quarters. This will bring to realization the ambitions and plans which have been held in abeyance for a long time.

OPENING OF HIGHWAYS TO EASTWARD SOUGHT

Opening of new highways and improvement of existing highway outlets to the east of Sierra Madre is sought in a new movement of the Chamber of Commerce. President Hawks has appointed a special committee consisting of A. M. Udell as chairman, with R. B. Wilson and C. J. Pegler, to push the matter.

Subdivision of the Santa Ana Canyon ranch by the Cook interests of Los Angeles seems to offer an opportunity to get something done, Mr. Cook being an old time friend of Mr. Wilson. It is hoped that Central Avenue may be continued eastward beyond the double drive from Arcadia, to connect with a road which will wind around the base of the foothills to the upper portion of Monrovia, giving a high line drive far above the Foothill boulevard.

Improvement of East Central Avenue in Sierra Madre has already been authorized by the city trustees. To make this improvement more effective an effort will also be made to secure the widening of the present narrow bridge over the Little Santa Anita in front of the Sebree property. This is within the limits of Arcadia and would require co-operation on the part of that city.

NEW BARBER SHOP EQUIPMENT IS FINE

"Fred's Barber Shop" is the name of a new establishment to be opened to the public tomorrow in the Kersting building at 22 West Central. Frederick Haas, formerly of Monrovia, is the proprietor. He has installed complete new equipment of the most modern type. Everything is finished in white enamel. There is an individual lavatory for each chair, which will save many steps and add much to the convenience of patrons as well as barbers. Each lavatory is fitted with a new type of shampoo spray and there are many other little features making the shop equipment unusual. Mr. Haas says he expects to add shoe shine and cigar counter equipment a little later. He says he will give especial attention to hair bobbing for ladies and children.

FIRE NEAR MOUNTAINS IS COSTLY BUSINESS

A party of Los Angeles picnickers who built a fire on Grand View Avenue were brought before Recorder Forman by Marshal Udell and fined \$5 by way of caution against incurring such risks. A Mexican, Glass, who started the fire near the Vogel place which threatened the whole mountain side, was fined \$12, equal to the pay of the firemen who made the run to the fire. H. O. Vogel was so appreciative of the work of the department that he voluntarily sent a check of \$50 for the department.

CIVIC ASSN. HOLDS DINNER AND FORUM

First of Regular Monthly Gatherings Attended by Large Crowd Last Friday

With a dinner for members only, followed by an entertaining program, the Sierra Madre Civic Association held the first of its regular monthly meetings in the Woman's Club House last Friday night. The whole affair proved to be very enjoyable and was largely attended.

The dinner, prepared under supervision of Mrs. W. J. Lawless, was served by a number of young men. It was delicious and would be a strong inducement to outsiders to become members if they only knew how good the individual chicken pies were. The tables were set in the club house parlors, overflowing into the auditorium. After the dinner the chairs were removed to the auditorium, for the crowd which filled the house to hear the later program.

Community singing was the opening feature, under leadership of Mr. Betts of Altadena, with Mrs. Betts at the piano.

Stuart French, chairman of the Pasadena city planning commission, gave an entertaining and instructive talk on the general subject of city planning. He showed that city planning in the modern way is merely the application of common sense to the long range view of the future needs of the city. The beautiful as well as the utilitarian idea should be kept in view, so that the public, and especially the growing generations, shall become accustomed to the best as the natural order of things.

Hire Expert Advice

One of the first things to be done in city planning, said Mr. French, is to hire an expert to study the situation and present a comprehensive plan. Then there will be a basis to work upon with competent guidance for the future.

The planning should comprehend the whole city, to avoid the hit and miss fancies of individual property owners and subdividers. This accidental development not only results in things undesirable in themselves. It also results in wasted and misdirected effort because things good in themselves are placed where they are of no particular value to the community.

After traveling over a large part of the world, Mr. French is convinced that the foothill district of Pasadena and Sierra Madre, are susceptible of development and beautification which can be excelled nowhere in the world.

Individuality is just as desirable in towns as in individuals, according to Mr. French. He likened the drive along the foothills to a highway leading out from Verona, Italy, and suggested the feasibility of a modified Italian architecture as peculiarly appropriate for this location.

Community Spirit

Dr. William A. Tate was called on for a talk on "Community Spirit." What might be a trite and threadbare subject was developed into a live, pulsating message which brought a very evident and cordial response from the audience. Dr. Tate expressed the thought that one of the most important things coming out of the war was the word "morale" with the train of psychology which has been impressed upon the public mind. Organized public sentiment directed to the development of the best sort of a community is a power beyond estimate for real accomplishment.

Glen E. Palmer was called upon for a talk on community advertising and related some of the methods and accomplishments of the Alhambra campaign which he has been managing. He told briefly and graphically how he had drawn the different sections and diverse elements of the community together so there was only one Alhambra, instead of North, South, East, and West Alhambra, each with its own internal problems and disputes. He then showed them the necessity for a program for the city of the future, a program for the ultimate expenditure of ten million dollars in development. Every phase of improvement was provided for, with a large number of committees putting to work on the common problem the best

BOYS CHALLENGE OLDER STARS TO BALL GAME

Another Exciting Battle Is Promised on the School Grounds on Saturday Afternoon

Since the playing of the spectacular ball game between the old-timers of the Men's Community Club and the Men's Fraternity of the Episcopal Church, the young fellows of town have been "rarin' to go." Right on the spot, these young bloods challenged the winners, and offered to play 'em anywhere and any time for any number of innings.

So there is to be a decision on the ball question at the school grounds this Saturday afternoon, or early evening, beginning at five o'clock—between the "young bloods" and the "not-as-young" fellows of both the men's teams, with a few extras thrown in. The "old boys" intend to give the "young sports" a run for their money.

Everybody in town ought to see the game—and be on the grounds to "root" one way or the other. If nothing else, it will encourage both the "old boys" and the "young boys" and put everybody in playing mood. Incidentally, it is one of the community features of the playgrounds that deserves everybody's support. The lineup will be something like this:

Young Bloods	Old Boys
Addis.....	RF.....Tate
Davis.....	C.....McMillan
Lorenzini.....	P.....Sadler
Draman.....	SS.....Greer
Thomas.....	1B.....Emley
Cox.....	2B.....Hill
Lees.....	3B.....Miller
Trejo.....	LF.....Stovall
Jensen.....	CF.....Griebenoow
Sub.....	Wheeling

SUMMER SCHEDULE FOR CLOSING OF STORES

Weekly half holidays for a number of the stores went into effect this week. Four of the grocery stores close at noon on Wednesdays during the summer. Those closing are M. D. Welsch, Annas Bros., S. R. Norris, and Chaffee's.

Other stores close at noon on Saturdays. They are: Sierra Madre Hardware Co., First National Bank, Sierra Madre News, Sierra Madre Electric Co., Sierra Madre Paint and Paper Store, Tucker's Jewelry Store.

The need for a weekly half holiday is so universally recognized that few people are disposed to complain about occasional personal inconvenience. Now some of the big Los Angeles stores are closing all day Saturday, a step which may become as general in a few years as the half-holiday is now.

GARDEN PARTY PLANNED

Ladies of the Eastern Star Chapter are planning a delightful garden party to be given in the near future on the beautiful home grounds of Judge and Mrs. Warren Williams, 49 West Live Oak Avenue. The swimming pool, outdoor dance floor and picnic arrangements will all be made use of. It is planned to have cards in the afternoon, serve supper and have dancing in the evening. Proceeds of the affair will be devoted to the chapter's furnishing fund for the proposed Masonic Temple.

COMMUNITY PROGRESS IS TOPIC FOR SERMON

In line with the community program of the First Congregational Church, Dr. William A. Tate will speak Sunday morning on "Some Elementary Factors in Community Progress." The church cordially invites those who are interested in community cooperation and the development of community spirit to unite as guests in the worship and fellowship of the service.

brains in the community. Mr. Palmer then quoted figures showing results from the \$25,000 campaign which amply justified the effort.

Mrs. Milton Steinberger then conducted an open forum in which several of the most important needs of the city were discussed frankly and in a fine spirit of optimism, by a number of citizens.

Increased Water Storage Agreed To Be Necessary

City Engineer Gierlich will bring in definite estimates of the best way to provide for necessary storage capacity for the city water system at the next meeting of the city trustees, according to his report at last night's meeting. Discussion of the matter between the engineer, the trustees and members of the Civic Association who were present developed a sentiment in favor of reservoir capacity of three million or four million gallons capacity.

Water Superintendent Henderson reported to the board some interesting figures he had procured regarding the cost of operating the pumping plants by natural gas engines instead of by electric motor. The matter came up in connection with the month's power bill for more than \$1100. Mr. Henderson reported the next bill would undoubtedly be larger. Engineer Gierlich also said he thought the matter of gas power was well worth investigating, so the board instructed him and Mr. Henderson to inquire further and report at the next meeting.

Canyon Streets

Street Superintendent Udell reported he had been unable to confer with Foreman Cochran of the Edison Company regarding lights on the streets in Sierra Madre canyon but expected to see him upon his return from a vacation within a few days. The necessary preliminary engineering work for the improvement of the canyon streets is progressing as rapidly as the city engineer can push it, so there is hope of better conditions to come.

Park Upkeep

Dr. Barker, speaking for the park commission, all of whom were present asked that the commission be permitted to select and recommend to the next meeting of the trustees a suitable man to have charge of the upkeep of the park, apart from the development work to be undertaken when plans are adopted. C. J. Pegler said he did not think it practical for the work to be done on a part time basis by employees of the street department. A request that the city set aside about 20 acres of the water department land in the Little Santa Anita Arroyo for park purposes was taken under consideration. It was not intended, said Dr. Barker, that immediate improvement be undertaken but that the land be considered as a part of the future park system and also to give the city sufficient park area to make a tax levy for park purposes possible. The request was taken under consideration for future decision.

Bids of \$200 for the house and \$65 for the barn on the old Hart property were the only ones received and were rejected.

The request of the Woman's Club that one or two members of the club be added to the park commission was discussed. It was finally voted without dissent that Mayor Mitchell should write the club assuring them that their desire to cooperate was fully appreciated, that the park commission being purely advisory left the decision of important matters of policy up to the trustees, who would be glad to give equal consideration to communications or recommendations which the members of the club might make. It was felt that it was really unnecessary to amend the ordinance providing for three members of the commission.

Fire Chief Topping recommended that Gilbert S. Keys, L. E. Steinberger Jr., Milton Steinberger and E. S. Gregg be added to the active list of the department, which was authorized.

A request from Dr. W. Jarvis Barlow for permission to remove certain street trees in front of his place on West Highland was granted, the work to be done under supervision of the street superintendent.

Mrs. Eva D. Moore and daughter Betty left last Saturday for Yosemite Valley, going with a friend, Mrs. Dickson of Los Angeles. They will make the trip by auto and spend three weeks camping.

Children's Wear

Another lot of the "Goosey Gander" Clothes for Children just in. They have the snap and style and are better made.

Children's Creepers, size 1 to 3, made of Gingham and Crepe, combination of colors.....\$1.48

PROF. HART CELEBRATES HIS EIGHTIETH BIRTHDAY

Prof. John J. Hart, Sierra Madre pioneer and one of the best known musicians in his time in Southern California, was the recipient of congratulations from a wide circle of friends and relatives on Sunday, the occasion being his 80th birthday. In addition to a family dinner with his children and grandchildren present at the home, 496 W. Central, many friends called during the day.

One of the pleasant features was the receipt of a note and book from the Tuesday musical club of Pasadena. The note was as follows:

The members of the Tuesday Musical Club of Pasadena wish to offer their congratulations to Prof. John J. Hart on this, his eightieth birthday, with all good wishes for his happiness in years to come. By the accompanying token they wish to express their appreciation of the service Prof. Hart has rendered Pasadena and the community in his faithful adherence to the highest musical standards, his reverence for the classics, his fine appreciation of the best in music, and his sincere contributions in composition. They feel that Prof. Hart was one of the few who laid the foundations upon which late-comers are able to build, and are grateful for the example of a man of such fine personal qualifications, as well as of such high musical scholarship.

Katharine N. Thomas, Pres.
Vestina Scobey Doolittle, Sec.
Sarah Coleman Bragdon,
Committee.

Accompanying the note was a choice book, "Master Musicians," selected by Prof. Adolph Tandler during his recent sojourn in Europe.

TENNIS TOURNEY WON BY EPISCOPAL SMOKERS

Adding a tennis tourney to their previous baseball victory, the Smokers' Club of the Episcopal church took the Men's Community Club of the Congregational church into camp on the Tarr tennis courts Saturday afternoon, with a score of three sets to two.

In the first set Tate and Hill defeated Hawks and Richardson, 6 games to 3. Then Tuttle and Snell lost to Wood and Emley, 2 to 6. In the third set of doubles Hill and Tarr lost to Daveness and Hawks, 4 to 6. In singles Dr. Tate lost to Wood, six straight, and Tuttle defeated Emley, 6 to 1. There was another set added as an entre act which, if it had been counted, would have evened the score, Mrs. Tarr defeating Dean Shaw handily.

Thought for the Day.
True greatness lies not so much in what we obtain as in what we attain.

MOUNTAIN SURVEY MAY MEAN NEW ROAD

Visions of a "Rim of the World" route through the heart of the great mountain district back of Pasadena and Sierra Madre loomed up a few days since as a result of a surveying expedition undertaken by twelve engineers under the direction of the State Bureau of Public Roads.

According to news filtering through mountain resort proprietors, government and county sources, the purpose of the survey is to find the best route from the Arroyo, in Pasadena, to a proposed addition to another mountain road constructed to Rincon canyon from Azusa. The link from the Arroyo would, it is supposed, go from Oak Wyld through Dark Canyon, pass Switzer's, Barley Flats, Pine Flats, Chilao and Buckhorn to connect with the proposed route from the San Gabriel near Mount Islip.

Built to Rincon

For the past ten years, it is stated, the construction of the road from Azusa has been in progress through county finances until now it has penetrated the Rincon district. According to the original survey, that road, at the expense of the state, is to continue in a northerly direction to Valermo on the desert side of the mountain, and to Palmdale. The connection at Mt. Islip leading through the mountain territory to the Arroyo would give the western part of the Angeles Reserve a loop unequalled on the continent, and at the same time rival the famous "Rim of the World" route in the San Bernardino mountains.

Four years ago the state legislature passed a bond issue bill with a "rider" calling for an appropriation of \$100,000 for a road in the Angeles Reserve. Recently it was discovered that some of the money had been laid aside, and it is stated, \$25,000 of the sum is to be devoted for the present survey.

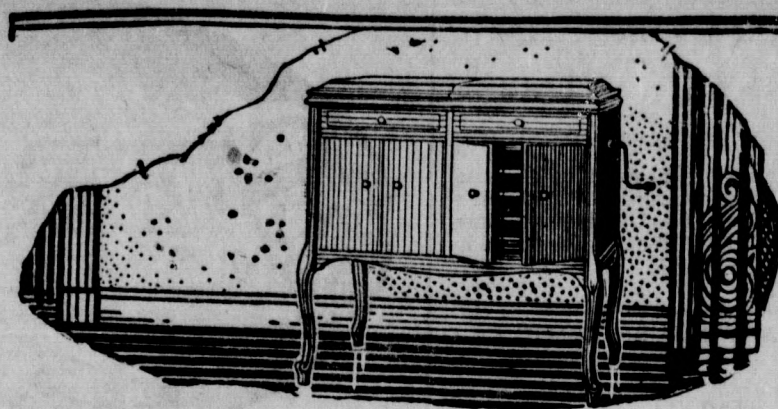

At a recent meeting in Los Angeles, officials of the United States Forest Service, the County Road Department, the Auto Club of Southern California and the State Highway Bureau brought pressure upon the state government, it is declared, to bring about the survey and probably start the proposed mountain road. The complete survey is to be made during the coming summer months.

Potential Evidence

Bethany Temple Church proves that Christians of all denominations can find happy fellowship together with only the Bible as their guide.

Ten different denominations are represented in the membership of this New Testament church recognizing no other Head than Christ.

The minister, the Rev. W. H. Rawlings, LL. D., came out of sectarianism many years ago and ministered for twenty years to the great unsectarian work he founded upon the Word of God.

This Church invites all who value a scriptural and spiritual ministry to hear the sermons announced for next Sunday.

Morning: "The Birth, Walk, Standing and Hope of the Christian."

Evening: "Divine Sovereignty and Human Frailty."

CARVING OF YOSEMITE FROM SOLID ROCK

All visitors to Yosemite are interested in the way that Nature carved such a marvelously beautiful masterpiece. Recent studies by members of the U. S. Geological Survey have proved conclusively the most important facts in the long hidden story.

The Sierra Nevada is a mountain range that has resulted from the tipping of a huge block of the earth's crust—a block 400 miles long and 80 miles wide. The break or "fault" occurred at the eastern edge of the block; one may now stand at the summit of Mt. Lyall or Mt. Dana and look down 10,000 feet or more to Mono lake and the desert valleys to the eastward. The westward slope of the Sierras slopes gradually—indeed, the average gradient from the crest to the San Joaquin valley only averages two degs.

Following the successive tiltings that raised the Sierra the main streams were forced to flow westward. One of these trunk streams, the Merced, carved its channel to a depth of more than 2000 feet to form the slowly developing Yosemite Valley. Then came a change in climate. The snows of winter accumulated in the higher mountains, compacted into ice, and sent forth glaciers into the lower country. Two of these glaciers, one from the main Merced drainage and one from the Tenaya Creek drainage, met in the Yosemite, greatly widened it, and, up to their retreat some 20,000 years ago, had succeeded in deepening the valley some twelve hundred feet.

Rev. F. Woodcutter, Rector

Corner Baldwin and Alegria Aves.

Sundays and Holy Days of Obligation, masses at 7:30 and 9:00 a. m.

Week days, mass at 7 a. m. Afternoon devotions, 3 p. m. First Friday mass, 7:30 a. m. Confessions Saturdays at 7:30 p. m.

St. Rita's Grammar school, conducted by Sisters of Loretto, teaches all grades to seventh grade included.

Bethany Church

(Interdenominational)

Rev. W. H. Rawlings, LL. D., pastor

Rev. U. M. Fox, assistant pastor

9:45 a. m.—Sunday School, Doctor H. J. Kirby, superintendent.

Morning worship, 11:00 A. M. Bible Class, Mr. C. E. Needham, teacher.

6:15 p. m.—Young People's Service.

7:30 p. m.—Song Service and Preaching.

Midweek Meeting, Wednesday 7:30 p. m. Welcome to All.

CHURCH OF THE ASCENSION SUNDAY SCHOOL PICNIC

The annual Sunday School and parish picnic of the Church of the Ascension will be held next Tuesday, July 17th, at Brookside Park, Pasadena. The request is made that those who are going will as soon as possible notify Dean Shaw of their intentions. Arrangements are being made to provide a sufficient number of cars to carry all to the park on that day.

Everyone will meet at the parish house at 10 a. m. Those having cars, who are willing to use them on this day, will be good enough to let the rector know, as he is anxious to make provision for all who desire to go to the picnic. A good time is anticipated and all are invited to go.

**Only Fresh Air
Can Enter this Oven**

No openings in the oven sides Perfect Distribution of Heat

GOOD housekeepers everywhere are talking about Fresh-Air Baking—the modern way to perfect cookery. Thousands of women noted for fine pie and cake making have adopted it, in the Estate Gas Range.

UNIFORM HEAT THROUGHOUT THE OVEN

No need to keep opening the oven door for a peep at the baking. No need to shift pans about. Estate Gas Ranges may be had with or without the ThermEstate Oven Heat Control, to fix the oven temperature required. But Estate construction itself, without the ThermEstate, insures even temperature all through the oven. Other advantages are extra oven capacity, less shrinkage and a material saving in gas.

Let us explain the advantages of Fresh-Air Baking in detail and show you the beautiful Estate Gas Ranges in a wide variety of styles and sizes.

ICE MORE IMPORTANT THAN MERE DIAMONDS TO UNITED STATES

According to the latest news from the African diamond field, the United States has purchased more diamonds this year than ever before. Several reasons have been advanced to explain why this is true, but whether or not the condition has any real significance is a question.

What is of real importance is that more ice is purchased per capita today than five years ago. The fact is worth more than a passing thought. The use of ice as a food preservative is one of the best precautions against many diseases caused by spoiled or contaminated food. Scientists explain that perishable foods deteriorate rapidly at temperatures higher than 50 degrees, and while the usual indications of

spoiling are not apparent, the food loses much of its nutritive value. Pure, wholesome food for the growing children of today means strong, healthy, capable men and women of tomorrow.

Moreover, the fact that nowadays nearly every family realizes the necessity of using ice the year round is more indicative of a greater general prosperity and better living conditions than the fact that a few millionaires have purchased diamonds. And while the owners of African diamond fields are to be congratulated on a bumper year, the various civic organizations, ice producers' associations and housewives' leagues, which help to educate the public to use ice, are to be congratulated still more.

Hospitality.

A cannibal's motto for strangers: "First come; first served."—From the Medical Quip.

Why let a LOW PRICE keep you from using the BEST?

Thousands of tests in our laboratories and on the road have shown conclusively that Zerolene, which is made from carefully selected Western Naphthenic Base Crude, transported in separate pipe lines to our refineries and then refined by our exclusive high-vacuum process, forms less carbon, gives greater gasoline mileage, and reduces friction and wear to a greater extent than any other automobile lubricant we have seen and tested or been able to produce.

Therefore we say, "Insist on Zerolene—even if it does cost less."

STANDARD OIL COMPANY (California)

30% less CARBON
5% more gasoline mileage

Ever Think of This?

Any man who is smart enough to make a political leader is capable of earning an honest living if he wants to.—Exchange.

THE HARDEST THINGS

Friend—What are the hardest things in your work of teaching?
Teacher—The children's heads.

SOME HARD FACTS • ABOUT SOFT MONEY

But meanwhile the politicians start to manipulate the base of the currency. They would change it from the gold standard to a fiat money plan—from a gold guarantee to the mere say-so of the government that a piece of paper was worth a dollar. The farmer wouldn't be watching the money-politicians. He would be too busy raising things. At the end of the year he has his thousand dollars. He takes them to the landowner and says, "I'll buy your land now—here's a thousand dollars."

But the landowner would say, "That is paper money—my land is worth one thousand dollars gold—the government has printed so much paper money folks haven't much confidence in it. But I am willing to take a chance if you will give me a dollar and a quarter in paper money for each gold dollar's value of my land—in other words, I'll give you my land for \$1,250 dollars paper."

Soft money would be only another way for the money-politicians to hand the farmer the same dirty deal as the basket manipulator. In the first case the farmer unknowingly gave a bushel and a quarter of his product, and in the second case he would have to give a dollar and a quarter of his money, for a dollar's value in return.

In Germany they have carried the manipulation of the mark so far—well, it seems hardly believable, but if they did the same thing to the dollar, it would take over ten million in paper money to buy that land. The primary producer can raise his prices, but not fast enough to equalize this drop in the gold value of unsound money. That is where the catch comes in.

PRINTING THE NEWS.

Sheldon (La.) Mail: Editing a newspaper in some respects is a good deal like preaching. The gospel truth must be presented in the form of generalism, or some fellow will get hit and howl, says a recent writer. Few persons like the truth, even in homeopathic doses, if it hits them, but while preachers and editors are criticised for what they do say, no one thinks of giving them credit for what they do not say. Yet what they keep to themselves constitutes the major portion of what they know about people. Very many people harbor the belief that newspapers are eager to publish derogatory things. It's a mistake. There isn't a newspaper that could not spring a sensation in a community at any time by merely telling what it knows. There is not a newspaper that does not keep under the lock of secrecy scores of derogatory things that never meet the public eye or reach the public ear. Deciding what not to print is the most troublesome part of newspaper work.

How many good stories are suppressed for innocent relatives and for public good nobody outside of a newspaper office has any idea. In some instances he who flies into a passion because a newspaper prints something about him which he considers complimentary has every reason to feel profoundly grateful to the newspapers for publishing so little of what it knows about him. And oftentimes the loudest bluffer is the most vulnerable to attack. A big noise is often a device employed to cover trepidation. Newspapers put up with more bluffing than any other agency would endure. It is not because they lack the courage; it is because they are unwilling to use their power to destroy or ruin unless the interests of society imperatively demand it. It might be well for some people to reflect upon these truths and in silent gratitude accept mild admonition lest worse befall them.

PASADENA ELKS STAGE CIRCUS NEXT WEEK

The Pasadena Elks Lodge No. 672 are going to put on the biggest event they have ever undertaken, the entire week of July 16th to 21st, inclusive at Tournament Park, which was the scene of the big football games of the Tournament of Roses for many years past.

C. Hal Reynolds, the Exalted Ruler, conceived the idea and Elmer Bates is the director in full charge of the affair, assisted by a committee of 100 of Pasadena's most prominent citizens and members of the Elks.

Tournament Park will be transformed into a veritable Fairyland with the latest effects in lighting arrangements, and strong floodlights and fancy colored illumination will be used. Powerful searchlights will make the heavens present an effect like the Aurora Borealis and a wonderful display of fireworks will take place every night.

The best talent has been obtained for the Circus, there being a dog and pony troupe, highly trained horses, trapeze artists. King Tut's Harem (a wonderful troupe of girls), clowns and all that goes to make a Circus, even including the Circus wagons and wild animals.

Big free attractions will be given every night, among a host of which will be Aileen Allen and her diving beauties in diving exhibitions, and concerts by the famous Pasadena Elks Bands under direction of Prof. J. W. Harrison.

Dancing will take place every night in the big lighted courts, with 12-piece orchestras.

General admission to the park will be only ten cents.

Smallest Letter.

What surely must be the smallest letter to cross the Atlantic arrived in London recently. It was a Christmas greeting cut with a diamond on a glass slide, the writing occupying the .43,000th part of a square inch. The greeting contained 59 words, and in addition a beautifully drawn picture of the sea and an island with trees, with the sun shining above it, the whole being surrounded in an ornamental border. Each word is quite distinct under an objective glass.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

WHAT BOY SCOUTS HAVE DONE

The Boy Scouts of America celebrated the week of the thirteenth anniversary—February 8-15. In its brief history 2,000,000 American boys have been influenced by its program of character building and citizenship training, and have promised to follow the scout oath which is as follows:

"On my honor I will do my best:
"1. To do my duty to God and my country, and to obey the scout law;
"2. To help other people at all times;
"3. To keep myself physically strong, mentally awake, and morally straight."

The present membership of boys and leaders is over one-half a million.

The boy scout program in providing wholesome work and play for the boy in his leisure time, has proved a remarkable aid in the prevention of juvenile delinquency.

A large number of universities, colleges, normal schools and theological seminaries have placed the study of scout leadership in their curricula. Grade schools are becoming interested in placing the study of the program in their work in connection with citizenship training.

The boy scout movement stresses out-of-door life because it believes that to be the most helpful type of citizen, a boy must become a strong and healthy man. Summer camping has been put on an organized basis, through the efforts of the movement. Last summer 200,000 boy scouts went into camp for two weeks or more.

As an aid to the boy in keeping mentally alert, the program offers merit badges for accomplishment in 61 various subjects. Scouts through the merit badge system have wonderful opportunity to choose wisely and thoughtfully their future vocation.

The wholesome activity, splendid courage and skill shown by boy scouts have furnished literature for boys with high and noble themes. The movement also produces a magazine for boys that has set an excellent standard in boy reading.

Many cities and towns have been recipients of services from the boy scouts in such work as campaigns for safety first, clean-up, better health, forest fire prevention, wild-life conservation, bird protection, and similar important public interests. This service is a direct outcome of the training which emphasizes "citizenship through service."

Competent first aid has been given by the scouts in countless individual cases, and in connection with many public disasters, such as the 1918 influenza epidemic, the Pueblo flood, the Knickerbocker theater tragedy. Six hundred and three gold medals have been awarded to boy scouts who have risked their lives to save others.

The scout slogan—"Do a Good Turn Daily"—has become famous throughout the country. With a half million scouts and leaders seeking daily for the opportunity to perform an act of kindness, one readily realizes the tremendous force for community welfare that lies in the boy scout training.

HELPS BOY "COME BACK"

The "come back" of a young Hungarian boy of a Middle-west town, broken down in body from undernourishment and in soul by harsh treatment in his home, to a condition of usefulness and happiness, contains a fine tribute to the boy scouts, for the influence of the scout program and the boys' own help, have been the main factors in accomplishing this result. Early in the summer, Louis, who had left his unhappy home was found by relief authorities living alone, in a dug-out in the side of a hill on the outskirts of the city. The boy scouts then adopted him and taught him scoutcraft. Louis occupied the scout's cabin, keeping it neat and tidy and in perfect repair. He has made exceptional progress, entering into the spirit of the organization so thoroughly that he is considered one of the best members of the troop.

SCOUTS RESCUE MINERS

One of the best "good turns" during the past summer of scouts from Indiana, Pa., was the part they played in a certain five hours' hard work which resulted in the rescue of two miners shut off by a cave-in in a small mine near the scout camp site.

SCOUTS FIND LOST MAN

Middleburg (Pa.) Troop 1 hunted lost man of feeble mind for two days and nights during heavy electric storm. Located him on third day.

BOY SCOUTS PROTECT TOWN

When the town of Coshocton, Ohio, was recently in the grip of an epidemic of a grave disease, local boy scouts were prepared to aid their community. The Rotary and Kiwanis clubs put out printed precautionary measures and the scouts co-operated by delivering one copy of these warnings and a personal message to each home in the town. The population is 12,000; the number of active troops is four; and the distribution was accomplished in 54 minutes.

Around Our Town

Norman B. Jensen came down Tuesday from Big Creek to spend a brief vacation with his wife and babies and his mother, Mrs. Amelia Jensen. He has been working the past year on Power House No. 3 of the Big Creek project of the Southern California Edison Co.

Mr. and Mrs. W. S. Hull and children returned Friday from a two weeks auto camping trip. They went as far as Yosemite Valley in company with Mr. and Mrs. C. B. Reas. The latter journeyed onward to Lake Tahoe, while the Hulls drove to Oakland and San Francisco, coming home by way of the coast highway.

Webster Vannier is spending the summer at the home of his mother, Mrs. E. H. Vannier, after a year of graduate work at the University of California.

A. W. Carpenter of Burlington, Iowa, arrived this week for a visit at the home of his brother, E. H. Carpenter.

Dr. W. H. Stemmerman and his sister, Miss Anna Stemmerman, left Sierra Madre on Thursday on a motoring trip to the North that will take about three months for its completion. Many stops along the way are planned, British Columbia being the final objective. Dr. Stemmerman recently sold his Auburn Avenue property to Los Angeles people.

Mr. and Mrs. Sheldon Atterbury of 127 Lima and Dr. McChesney Meyer and Mr. E. B. Meyer of 119 Lima, are spending the summer at Ocean Park.

Mr. J. M. Tuttle, former local foreman of the Southern California Gas Co., Mrs. Tuttle, and their two sons, are spending a couple of weeks at a family reunion in New Mexico, held at the home of Mr. Tuttle's parents.

Miss Jessie Ward of 119 E. Grandview and Mrs. O. R. Beers, her daughter Margaret and her son LeRoy of 120 S. Mt. Trail, leave Tuesday for Meek's Bay, Lake Tahoe, where they will spend the summer.

Mr. and Mrs. Luther Gilson of 44 W. Mira Monte left Thursday for West Allis, Wis., where they will spend a couple of months visiting relatives and friends.

Mr. and Mrs. C. M. Deist and son of 129 Montecito Ave. expect to leave soon for Belle Plaine, Kansas, to visit friends and relatives.

The Men's Smoker of the Episcopal Church held their monthly meeting Saturday night in the parish house. They had as special guests for the evening their victims of the Congregational Community Club Baseball team. The informal evening's entertainment wound up with the serving of delicious refreshments.

The Get-Together Club of the Eastern Star ladies were delightfully entertained Wednesday afternoon by Mrs. Ethel Keith, Mrs. Virginia Roess and Mrs. Mary J. Dickinson at the Keith home, 326 West Central. Each guest was presented with a pretty little potted palm as a souvenir. Dainty refreshments were served.

Call Main 60, Sierra Madre Feed & Fuel, for reasonable rates on all kinds of transfer and trunk jobs. Trips to Los Angeles daily. 41c

INTERNATIONAL NEWS
FUN FROM THE PRESS

Richard Barthelmess with Dorothy Gish,

In Joseph Hergesheimer's colorful romance of Cuban nights, languorous—but suddenly aflame at the whirling fringe of "THE BRIGHT SHAWL."

Of the many characters created by Barthelmess we believe his pantomimic artistry is most appealing in this story of a young American's encounter with the impulsive Cuban Lady of the Bright Shawl. A drama of hearts, flowers, swords—and a great soul.

CURRENT EVENTS

COMEDY

William Farnum in "Brass Commandments"

A swiftly moving tale of the West, sizzling with action, containing exhibitions of dazzling riding, clever shooting and a whirlwind fight that furnishes a strong dramatic climax. There is romance, too, not the sticky molasses kind, but red blooded, glowing, live romance. Those who remember Tom Santschi's oft mentioned battle with Farnum in "The Spoilers," will find a more exciting combat in this offering.

Wednesday and Thursday, July 18, 19

COMEDY

"Slippy McGee," with Colleen Moore and Wheeler Oakman.

Oliver Morosco excels anything he ever produced when he presents the story of a crook, a sky-pilot—and lovely Mary Virginia. Real people—and a living drama adapted from Marie Conway Oemler's famed novel.

Friday and Saturday, July 20, 21

COMEDY

THIRD ROUND OF "THE FEATHER PUSHERS"

Thos. H. Ince presents "Soul of the Beast," with Madge Bellamy

Every youngster from seven to seventy-seven will get a "kick" out of Thomas H. Ince's masterly production of "Soul of the Beast." This Metro picture is the greatest human interest story ever screened. A waif of the circus and her elephant run away into the Canadian backwoods where marvelous adventures befall them. Madge Bellamy is the quaint little elephant girl while "Oscar" himself shows such remarkable intelligence that he has been pronounced one of the screen's greatest actors.

Hubbard's "Message To Garcia" Is Worth Reading Again

(Elbert Hubbard's article bearing this title was claimed to have been reprinted more within a short space of time than any other single article of English literature had been. Many of today's young people have never seen it, and it still justifies reprinting.)

In all this Cuban business there is one man who stands out on the horizon of my memory like Mars at Perihelion. When war broke out between Spain and the United States it was very necessary to communicate quickly with the insurgents. Garcia was somewhere in the mountain fastnesses of Cuba, no one knew where. No telegraph message could meet him. The president must secure his co-operation and quickly.

What to do!
Someone said to the president, "There's a fellow by the name of Rowan who will find Garcia for you, if anybody can."

Rowan was sent for and given a letter to be delivered to Garcia. How the fellow by the name of Rowan took the letter, sealed it up in an oilskin pouch, strapped it over his heart, in four days landed by night off the coast of Cuba in an open boat, disappeared in the jungle and in three weeks came out on the other side of the island, having traversed a hostile country on foot and delivered his letter to Garcia, are things I have no special desire to tell in detail.

The point I wish to make is this: McKinley gave Rowan a letter to be delivered to Garcia; Rowan took the letter and did not ask, "Where is he at?" By the eternal! There is a man whose form should be cast in deathless bronze and the statue placed in every college in the land. It is not book-learning young men need, nor instruction about this and that, but a stiffening of the vertebrae which will cause them to be loyal to a trust, to act promptly, concentrate their energies, do the thing—carry a message to Garcia.

General Garcia is dead now, but there are other Garcias.

No man has ever endeavored to carry out an enterprise where many hands were needed but has been well nigh appalled at times by the imbecility of the average man—the inability or unwillingness to concentrate on a thing and do it. Slipshod assistance, foolish inattention, dowdy indifference and half-hearted work seem to be the rule, and no man succeeds unless by hook or crook or threat he forces or bribes other men to assist him; or mayhap God in His goodness performs a miracle and sends him an Angel of Light for an assistant. You, reader, put this matter to a test. You are sitting now in your office—six clerks are within call. Summon any one and make this request: "Please look in the encyclopedia and make a brief memorandum for me concerning the life of Corregio."

Will the clerk quietly say "Yes, sir," and go and do the task,

On your life he will not. He will look at you out of a fishy eye and ask one or more of the following questions:

Who was he?
Which encyclopedia?
Where is the encyclopedia?

Don't you mean Bismarck
What's the matter with Charlie doing it?

Is he dead?
Is there any hurry?
Shan't I bring you the book and let you look it up yourself?

What do you want to know for?

And I lay you ten to one that after you have answered the question, and explained how to find the information, and why you want it, the clerk will go off and get one of the other clerks and help him find Garcia—and then come back and tell you there is no such man. Of course I may lose my bet, but according to the law of averages I will not.

Now if you are wise, you will not bother to explain to your "assistant" that Corregio is indexed under the C's and not the K's, but you will smile sweetly and say "Never mind," and go and look it up yourself.

And this incapacity for independent action, this moral stupidity, this infirmity of the will, this unwillingness to cheerfully catch hold and lift, are the things that put pure socialism so far in the future. If men did not act for themselves, what will they do when the benefit of their effort is for all? A first mate with a knotted club seems necessary, and the dread of getting the "bounce" Saturday night holds many a worker in his place.

Advertise for a stenographer and nine out of ten who apply can neither spell nor punctuate—and do not think it necessary to.

Can such write a letter to Garcia? "You see that bookkeeper?" said the foreman to me in a large factory.

"Yes, what about him?"
"Well, he's a fine accountant, but if I'd send him up town on an errand he might accomplish the errand all right, and on the other hand might stop at four saloons on the way, and when he got to Main street would forget what he'd been sent for."

Can such a man be entrusted to carry a message to Garcia?

We have recently been hearing much maudlin sympathy expressed for the "down-trodden denizens of the sweatshop" and "honest wanderer searching for honest employment," and with it all often go many hard words for the men in power.

Nothing is said of the employer, old before his time in a vain attempt to get frowzy ne'er-do-wells to do intelligently work; and his long, patient striving with "help" that have shown their incapacity to further the interests of the business, and others are being taken on. No matter how good times are, this sorting continues; only, if times are hard and work is scarce, the sorting is done finer—but out, and forever out, the incompetent go. It is the survival of the fittest. Self-interest prompts every employer to keep the best—those who can carry a message to Garcia.

I know one man of really brilliant parts who has not the ability to manage a business of his own and yet who is absolutely worthless to anyone else, because he carries with him constantly the insane suspicion that his employer is oppressing, or intending to oppress him. He cannot give orders and he will not receive them. Should a message be given him to take to Garcia, the answer would probably be, "Take it yourself."

Tonight this man walks the streets looking for work, the wind whistling through his threadbare coat. No one who knows him dare employ him, for he is a regular firebrand of discontent. He is impervious to reason, and the only thing that can impress him is the thick sole of a No. 9 boot.

Of course I know that one so morally deformed is no less to be pitied than a physical cripple; but in our pitying let us drop a tear, too, for the men who are striving to carry on a great enterprise, whose working hours are not limited by the whistle and whose hair is fast turning white through the struggle to hold in line dowdy indifference, slipshod imbecility and the heartless ingratitude which but for their enterprise would be both hungry and homeless.

Have I put the matter too strongly? Possibly I have, but when all the world has gone a-slumming I wish to speak a word of sympathy for the man who succeeds—the man who, against great odds, has directed the efforts of others, and having succeeded finds there's nothing in it; nothing but bare board and clothes.

I have carried a dinner pail and worked for day's wages, and I have also been an employer of labor, and I know there is something to be said on both sides. There is no excellence per se in poverty; rags are no recommendation; and all employers are not rapacious and high-handed, any more than all poor men are virtuous.

My heart goes out to the man who does his work when the boss is away

BOOS BROS. POULTRY RANCH BRINGS \$25,000

With the sale last week of the Boos Bros. poultry plant on Ocean Highway one of the largest individual sales of the year was consummated by J. B. Christensen. The price paid was approximately \$25,000. The purchaser, Mr. H. S. Guie of 3200 Verdugo road, Los Angeles, will improve same with large modern home in the near future.

For Tapestry Furniture.

The arms of tapestry furniture are the first to show soil and wear. If you cover them with pieces of linen or inept made about 15 inches square it will save your furniture considerably. These squares can be neatly trimmed and pinned on the furniture, and are easily removed for washing. They are not unsightly and are nice to use in the absence of slip covers.

Better Than Wife Thinks Him.

No matter how much of an old sinner a married man may be, the chances are that he doesn't do half the things that his wife suspects him of doing.—Allentown Record.

NEWS WANTADS PAY

RESOLUTION NO. 158

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE DECLARING ITS INTENTION TO CHANGE AND ESTABLISH THE GRADE ON A PORTION OF BALDWIN AVENUE, IN SAID CITY OF SIERRA MADRE, CALIFORNIA.

THE BOARD OF TRUSTEES OF THE CITY OF SIERRA MADRE DO RESOLVE AS FOLLOWS:

SECTION 1:

That it is the intention of the Board of Trustees of the City of Sierra Madre to change and establish the grade of Baldwin Avenue from the Northernly line of Live Oak Avenue to the Southernly line of Carter Avenue in the City of Sierra Madre, in accordance with the following elevations:

Along the Easterly line of Baldwin Avenue the grade shall be, as follows:

At the Northeast corner of the intersection of Baldwin Avenue and Live Oak Avenue the grade shall be 737.18.

At the intersection of Baldwin Avenue and Lowell Avenue the grade shall be 775.00 at the Southeast corner and 778.00 at the Northeast corner.

At the intersection of Baldwin Avenue and Suffolk Avenue the grade shall be 798.50 at the Southeast corner, and 801.40 at the Northeast corner.

At the intersection of Baldwin Avenue and Central Avenue the grade shall be 818.90 feet at the Southeast corner, and 821.00 at the Northeast corner.

At the intersection of Baldwin Avenue with that portion of Montecito Avenue extending Easterly from Baldwin Avenue the grade shall be 838.80 at the Southeast corner, and 841.50 at the Northeast corner.

At the intersection of Baldwin Avenue and Highland Avenue the grade shall be 861.40 at the Southeast corner, and 864.35 at the Northeast corner.

At the intersection of Baldwin Avenue with that portion of Laurel Avenue extending Easterly from Baldwin Avenue the grade shall be 892.85 at the Southeast corner, and 895.15 at the Northeast corner.

At the intersection of Baldwin Avenue with Grand View Avenue the grade shall be 930.90 at the Southeast corner and 935.44 at the Northeast corner.

At a point on the Easterly line of said Baldwin Avenue distant thereon 342 feet Northernly from the Northeast corner of the intersection of Baldwin Avenue and Grand View Avenue the grade shall be 962.44.

At the intersection of Baldwin Avenue with that portion of Alegria Avenue, extending Easterly from Baldwin Avenue, the grade shall be 966.90 at the Southeast corner and 970.90 at the Northeast corner.

At a point on the Easterly line of said Baldwin Avenue distant 160 feet Northernly from the Northeast corner of the intersection of said Baldwin Avenue and Alegria Avenue, the grade shall be 983.63.

At the intersection of Baldwin Avenue with that portion of Mira Monte Avenue extending Easterly from said Baldwin Avenue the grade shall be 1005.15 at the Southeast corner and 1010.24 at the Northeast corner.

At a point on the Easterly line of said Baldwin Avenue distant thereon 180 feet Northernly from the Northeast corner of the intersection of said Baldwin Avenue and Mira Monte Avenue the grade shall be 1027.74.

At the intersection of Baldwin Avenue and Carter Avenue the grade shall be 1051.00 at the Southeast corner.

Along the Westerly line of said Baldwin Avenue the grade shall be as follows:

At the Northwest corner of the intersection of Baldwin Avenue and Live Oak Avenue the grade shall be 737.50.

At the intersection of Baldwin Avenue and Bonita Avenue the grade shall be 762.4 at the Southwest corner and 765.4 at the Northwest corner.

At a point on the Westerly line of said Baldwin Avenue distant thereon 300 feet Northernly of the Northwest corner of the intersection of Baldwin Avenue and Bonita Avenue the grade shall be 780.00.

At the intersection of Baldwin Avenue and Esperanza Avenue the grade shall be 790.00 at the Southwest corner and 793.00 at the Northwest corner.

At the intersection of Baldwin Avenue and Central Avenue the grade shall be 820.56 at the Southwest corner and 824.26 at the Northwest corner.

At a point on the Westerly line of said Baldwin Avenue distant thereon 40 feet Northernly of the Northwest corner of the intersection of said Baldwin Avenue and Central Avenue the grade shall be 828.26.

At a point on the Westerly line of said Baldwin Avenue distant thereon 330 feet Northernly of the Northwest corner of the intersection of said Baldwin Avenue and Central Avenue the grade shall be 837.30.

At the intersection of Baldwin Avenue with that portion of Montecito Avenue extending Westerly from said Baldwin Avenue the grade shall be 846.20 at the Southwest corner and 848.00 at the Northwest corner.

At a point on the Westerly line of said Baldwin Avenue distant thereon 150 feet Northernly from the Northwest corner of the intersection of said Baldwin Avenue and Montecito Avenue the grade shall be 855.65.

At the intersection of Baldwin Avenue and Highland Avenue the grade shall be 864.45 at the Southwest corner and 867.55 at the Northwest corner.

At the intersection of Baldwin Avenue and Victoria Lane the grade shall be 881.10 at the Southwest corner and 883.40 at the Northwest corner.

At the intersection of Baldwin Avenue with that portion of Laurel Avenue extending Westerly from said Baldwin Avenue the grade shall be 900.80 at the Southwest corner and 903.34 at the Northwest corner.

At the intersection of Baldwin Avenue and Grand View Avenue the grade shall be 932.70 at the Southwest corner and 935.45 at the Northwest corner.

At the intersection of Baldwin Avenue with that portion of Alegria Avenue, extending Westerly from said

SOME HARD FACTS ABOUT SOFT MONEY

By JOHN OAKWOOD

When a farmer takes his product to market and sells it for, say, a dollar a bushel, he is dependent upon the honesty of two measures—the dollar and the bushel.

The other day a crossroads storekeeper got sent to jail for manipulating a trick bushel basket with a false bottom that would slide up and down in a way that was grand, gloomy and mysterious. When using it to measure stuff he bought from a farmer, he'd secretly shove the bottom down until it held at least a bushel and a quarter, but he would only credit him with a bushel. The buying power of the farmer's product was thereby depreciated by about twenty per cent.

Finally the farmers thereabouts got wise to the fact that the only way they could get what was coming to them was to enforce a reliable standard of measurement. So they put a good stiff jail penalty on using a fake measure, laid for that storekeeper with the trick basket and sent him to prison.

Politicians in Europe have been manipulating the other measure—the money measure—in much the same way. Some of them in America want to tamper likewise with the dollar. Here is about the way it would work out. Suppose, when the farmer brought his product to market, the basket measure was honest enough and he got a dollar bill for each bushel. He'd take his dollars home and save them. Perhaps he planned to buy some land next his own for a thousand dollars, and figured that in a year or so he could make it.

Baldwin Avenue the grade shall be 963.40 at the Southwest corner and 966.10 at the Northwest corner.

At the intersection of Baldwin Avenue and Olive Avenue the grade shall be 976.10 at the Southwest corner and 979.00 at the Northwest corner.

At the intersection of Baldwin Avenue with that portion of Mira Monte Avenue extending Westerly from said Baldwin Avenue the grade shall be 1009.00 at the Southwest corner and 1013.00 at the Northwest corner.

At a point on the westerly line of Baldwin Avenue distant thereon 160 feet Northernly on the Northwest corner of the intersection of said Baldwin Avenue and Mira Monte Avenue, the grade shall be 1028.60.

At the intersection of said Baldwin Avenue and Carter Avenue the grade shall be 1048.95 at the Southwest corner.

That between all of the points above mentioned in this Resolution the grades shall conform to straight lines joining those points on the same side of the street.

That the grades given are in feet above the City Datum Plane, which plane is 821.19 feet below that certain bench mark or datum plane monument within the City of Sierra Madre, consisting of the top of the Galvanized cap upon that certain pipe set in concrete situated at the intersection of a line drawn two feet southerly from and parallel with the North line of Central Avenue, and a line drawn two feet Easterly from and parallel with the West line of Baldwin Avenue in said City of Sierra Madre, and the said grades are on the property lines of the street.

All Avenues and streets referred to in this Resolution are public streets of said City of Sierra Madre.

The proceedings for the aforesaid change of grade shall be taken under and in accordance with the "Change of Grade Act of 1909."

SECTION 2. The Sierra Madre News, a weekly newspaper of general circulation, published and circulated in said City of Sierra Madre, is hereby designated as the newspaper in which this Resolution of Intention and notice of the passage thereof shall be published in the manner and by the persons required by law.

SECTION 3. The Superintendent of Streets is hereby directed to post notices of the passage of this Resolution in the manner provided by law, and said Superintendent of Streets shall also cause a notice similar in substance to be published by two insertions in said newspaper in the manner required by law.

SECTION 4: The City Clerk of the City of Sierra Madre shall certify to the passage of this Resolution, and shall cause the same to be published by two insertions in the manner required by law in said newspaper, and shall post the same conspicuously for two days on or near the Chamber Door of the Board of Trustees of said City.

Adopted this 28th day of June, 1923.

ROBERT MITCHELL
President of the Board of Trustees of the City of Sierra Madre.

ATTEST:
L. DIETZ,
City Clerk of the City of Sierra Madre.

STATE OF CALIFORNIA
CITY OF SIERRA MADRE, SS.

I, L. Dietz, City Clerk of the City of Sierra Madre, do hereby certify that the foregoing Resolution was duly adopted by the Board of Trustees of the City of Sierra Madre, State of California, and signed by the President of the said Board at a regular meeting thereof, held on the 28th day of June, 1923, by the following vote, to-wit:

AYES: Trustees Karicofe, Richards, Sparks and Mitchell.

NOES: None.

Absent: Trustee Topping.

L. DIETZ,
City Clerk of the City of Sierra Madre.

41-42

THE SERVICE OF A FAILURE

BY J. H. PUELICHER

President American Bankers Association

J. H. Puelicher

When Governor Walton of Oklahoma signed recently the repeal of the bank deposit guaranty law in that state, he performed an economic service to the whole country. I might even say that Oklahoma in passing that law, enduring its evil consequences for fifteen years and then frankly casting it aside as a failure, has performed an economic service to the nation. There could be no more convincing argument against the passage of similar laws in other states than Oklahoma's disastrous experiment.

The Oklahoma guaranty law was the first of its kind. It was enacted in response to the panic of 1907. But experience has only proved again that there is no substitute for sound banking. Relying on the fancied security of the guaranty law, people entrusted their banking to many who were unfit for the trust. Bank failures have been so many that the fund, supposed to guarantee deposits, created by assessments on banks, was long ago depleted.

It is estimated that with total liabilities created under the law in the form of warrants and sums owing to depositors amounting to \$12,000,000, there are in the hands of the Banking Board uncertain assets of nominally \$15,000,000, ranging in value from zero to only thirty or forty cents on the dollar, resulting in a deficit of many million dollars. Sound, well-managed banks have been heavily taxed by assessments to the fund, and the maximum amount that could be assessed on solvent banks is insufficient to cover the deficit.

It has been well said that guaranty laws make for looseness in banking methods, and saddle on the competent and honest the sins of the incompetent and dishonest.

Let us have only laws that raise the standard of banking. Let us have no laws that debate it.

NEED FOR UNIFORMITY IN BUSINESS LAWS

How Collection of Just Debts May Be Prevented by Differing State Statutes.

An effort to bring about better coordination and greater uniformity among state laws dealing with business and banking is being made by the American Bankers Association.

It is pointed out that, although the country is a unit commercially, and citizens of any one state may do business that reaches all over the country, most laws governing business transactions are made by the different states, with application limited to their own local jurisdictions and often in conflict with laws in other states. It is held that state laws should be uniform so that the same transaction will not be subject to different sets of rules according as state laws differ.

To illustrate the disadvantages of conflicting laws, the following illustration is given: Mr. Jones lives in New York where the statute of limitations outlaws a note in six years. He falls into the error of assuming that the same rule prevails everywhere. He visits Maryland and loans \$1,000 to his friend, Mr. Smith, taking a promissory note. As the note carries interest Mr. Jones is in no hurry for his money and he believes Smith to be financially responsible. Finally at the end of four years Jones concludes he has loaned Smith the money long enough and seeks to collect the note from him. But Smith can deny liability and point to the statute of Maryland which Jones is surprised to learn outlaws a note after three years.

Changes Recommended

The particular subjects of legislation recommended by the association for enactment by State legislatures during 1923 include uniform acts on negotiable instruments, bills of lading, warehouse receipts, stock transfer, and fiduciaries.

Under the head of laws for better protection of banks in particular transactions are proposed measures dealing with limiting liability on certified check; instruments based on gambling or usurious consideration; time limit on stop payment; payment of stale check; adverse claim to bank deposit; payment of forged or raised check; deposits in two names; deposits in trust; competency of bank and corporation notaries; non-payment of check through error; Saturday afternoon bank transactions, and forwarding check direct to payor.

Under the Federal Reserve and foreign banking are recommended laws on membership of state institutions in Federal Reserve System, and foreign banking. Penal laws proposed deal with false statements for credit; slander and libel of bank; checks or drafts without funds, and burglary with explosives.

CENTRAL AND SUNNYSIDE

ANSWERS TO NUMBER PUZZLES ARE GIVEN

Last week the News printed two number puzzles submitted by Henry C. Turek of North Lima street. This week the puzzles are reprinted with the correct answers for the benefit of any who may be interested in finding the correct solution. The puzzles and answers are as follows:

Puzzle No. 1

In 9 squares place the numbers 1 to 9 in rows that any way in any straight line and from corner to corner, will add 15. Use each number once only.

The Correct Solution

2	7	6
9	5	1
4	3	8

Puzzle No. 2

In 25 squares place the figures from 1 to 25 in rows that, added in any straight line, up, down, side to side, and corner to corner, will be 65. Use each figure once only.

The Correct Solution

3	16	9	22	15
20	8	21	14	2
7	25	13	1	19
24	12	5	18	6
11	4	17	10	23

TAILOR IS WANTED TO BEAT THE RUSH

The Sierra Madre Tailors and Dry Cleaners are advertising for a tailor. Mr. Zettas says he is so busy he cannot do all the work himself and finds it necessary to send a part of his tailoring out of town. His partner, Mr. Craig, is such a hustler that he brings in more than enough to keep one man busy. Mr. Zettas says he finds difficulty in finding a first class tailor who will "come to the country" but hopes to have another man soon. He has just received his samples of fall and winter suitings (can you appreciate it?) and says his orders for new suits have been highly satisfactory in number.

DELIVERING LECTURES AT UNIVERSITY CONFERENCE

Dr. William S. Bovard of Evanston, Ill., is visiting his son, Dr. Gilbert S. Bovard and his sisters-in-law, Miss Alice Tufts and Mrs. Mary Dranga for a fortnight. Mr. Bovard is general secretary of the Board of Education of the Methodist Church and is delivering a series of lectures at the church educational conference now in progress at the University of Southern California.

Mrs. C. C. Wilson (Miss Esther Olsen) who is making her home in Santa Monica for the summer was the hostess for a dinner party given for the bridal party and a few friends.

News Wantads bring results.

JOSEPH T. SWANSON
State of California, County of Los Angeles, ss:

On this 12th day of June, 1923, before me, Robert Mitchell, Notary Public in and for said County and State, personally appeared William Murphy and Joseph T. Swanson, known to me to be the persons whose names are subscribed to the within instrument and acknowledge to me that they executed the same.

IN WITNESS WHEREOF I have hereunto set my hand and affixed my official seal the day and year of this certificate first above written.

(SEAL) ROBERT MITCHELL

Notary Public in and for the County of Los Angeles, State of California

CHANGES IN FURNITURE STORE ARE IMPORTANT

Roland A. Adams has changed the entire appearance of his store by shifting of the shelving and re-arranging of the stock. He has added largely to his stock of new furniture and has an attractive establishment now. The stock of used furniture with which he started in business a few years ago is displaced in importance by the large stock of new goods on hand, although he still has an assortment of bargains in used furniture.

This week, at their mountain home, Ferncliffe, Woodland Drive, Mr. and Mrs. Geo. W. Miller are entertaining with a house party in honor of their niece, Miss Janet Jepsen, of Los Angeles, a co-ed. of the Southern Branch, for six of Miss Jepsen's sorority sisters. A feature of the week end will be a garden party to be held this evening. There will be present about forty guests, young people and their parents, from Los Angeles, Hollywood, Santa Monica and Sierra Madre. The grounds will be gaily decorated with lanterns and there will be dancing in the open air.

Mrs. and Mrs. E. D. Topping and Mrs. H. W. Topping have returned from a delightful motor trip of several weeks. They spent most of the time in the northern mountains, seeking out of the way roads and finding some of the most beautiful scenery in the state. Most of it is never seen by the motorist who sticks to the paved roads. They travelled as far north as Oregon and on the return trip crossed over the Siskiyou range to Crescent City and came down the new coast highway.

President H. E. Allen is on duty again at the Sierra Madre Savings Bank after a week's vacation. He went to San Francisco, having a very enjoyable journey by water.

TRY A WANTAD IN THE NEWS

A lighted match to the wick and your oil cookstove is instantly ready. It concentrates clean, steady heat directly on the cooking utensil.

No coal or wood to lug, or ashes to shovel out—a clean, cool kitchen free from dirt and smoke.

To obtain best results, use Pearl Oil—the clean-burning, uniform kerosene—scientifically refined and re-refined by a special process.

Pearl Oil is sold by dealers everywhere. For your own protection order by name—Pearl Oil.
